Renewed Petition under 37 CFR 1.137 (b)

Attention: PCT Legal Office
Box PCT
Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Applicant's petition for revival was dismissed without prejudice, for failure to make an adequate showing that the "entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional." Applicant, respectfully requests reconsideration on the merits of the previously filed petition.

The decision to dismiss was based on a finding that Mr. Lowe, the attorney of record at the time of abandonment, "was aware of the need to timely file the national stage application in Europe, and clearly had an adequate docketing system in place with respect to this application, his failure to initiate a national stage in the United States raises an issue as to whether or not the

Applicant: Xuekui Lan et al.
Application No.: PCT/US97/17417

failure to enter the national stage in the United States was intentional.”

The accompanying Statement of James E. Lowe with Exhibit D, makes clear that the filing of a U.S. national phase application was not considered as a result of the docket notice which resulted in the filing of the European application, and therefore the abandonment of the United States application was unintentional.

The exhibits A, B, and C which were submitted with the original petition, as evidenced by the attached photocopy of the postcard, are attached.

Additional exhibit E indicates that on January 20, 1999, the United States was identified to be included in the chapter II demand.

Respectfully submitted,

Patrick J. G. Stiennon, Reg. No. 34934

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Docket No.: VALMET-5210

Continuation of: PCT/US97/17417

Examiner:

For. Web **Method and Apparatus for the High Speed Application of Coating to a Traveling Paper**

Statement of James E. Lowe, Jr.

As of about September 7, 1999 I became responsible for the patent portfolio which previously had been managed by the Beloit patent department. In the process of taking over responsibility for the Beloit patent portfolio, I downloaded data from Beloit's docket system into my own docket system. Based on my docket system I was reminded of the 30 month deadline for entering the national phase, based on PCT/US97/17417 (my reference No. 40422). However, my docket did not provide a specific indication of the necessity of entering the national phase in the United States. Attached exhibit D is a letter to Greg Wedel (with non relevant parts redacted), an employee of Beloit Corporation dated November 18, 1999, in which he was asked to select countries for foreign filing. To the best of my knowledge and belief at no time was a decision to abandon the United States national phase application considered by anyone. At no time did I intend, nor did the then present owner intend, the abandonment of the national phase application in the United States of PCT/US97/17417.

Dear Ted:

As part of the reorganizational efforts of Harnischfeger Industries and its subsidiaries, a decision has been made to close the Beloit Patent Dept., and handle all matters through Jim Lowe at Harnischfeger Industries.

Effective immediately, all correspondence which previously would have been sent to the Beloit Patent Department, should now be sent to:

Mr. James E. Lowe, Jr.
Chief Patent Counsel
HARNISCHFEGER INDUSTRIES
3600 South Lake Drive
St. Francis, WI 53235

Mailing Address:
P.O. Box 554

From: Gerald A. Mathews
To: BCORP_RD4.PO4(XKLan)
Date: 6/3/98 2:36pm
Subject: Status of Disclosure 5077b -Reply

Xuekui, this disclosure was filed as a PCT application (PCT/US97/17417) on September 26, 1997, based on Provisional Patent Application Serial Number 60/051,474.

Accordingly, it will go through the usual 30 month procedure of being searched for novelty, receiving a Written Opinion from the Examiner and given a Preliminary Examination Report from which we can decide whether or not to file corresponding national patent applications. Therefore, there probably will be a corresponding U. S. patent application filed, but the PCT procedures do not allow this to be done at this time.

To summarize, everything that can be done at this time regarding the patenting of this invention has been done. It's status is that it's a patent application pending in the U. S. Receiving Office of the International Preliminary Examinary Authority which, in this case, is the U. S. Patent Office.
